MEMBERSHIP INFORMATION

The Society for Applied Anthropology was incorporated as a scientific society in 1941 under the laws of the Commonwealth of Massachusetts. Its primary object is "the promotion of scientific investigation of the principles controlling the relations of human beings to one another, and the encouragement of the wide application of these principles to practical problems."

The Society holds its own annual meetings as well as meetings held in conjunction with other scientific societies. The Society's meetings are so organized to provide wide opportunity for discussion as well as for reporting of research findings.

Membership includes a subscription to HUMAN ORGANIZATION, a quarterly journal, plus free copies of the monograph series. Articles in HUMAN ORGANIZATION and papers delivered at meetings cover the application of social research findings to the following areas of interest: social psychiatry or mental health; industry and other work organizations ( i.e. government, hospitals, etc.); community organization (urban and rural); political behavior; social welfare; public health; cultural and technological change.
